

CUSIP Access

Inclusion of New CUSIP Carbon Credit Service in CUSIP Access

CUSIP Global Services (CGS) in partnership with BeZeroCarbon have created the CUSIP Carbon Credit service to help support carbon trading within the Voluntary Carbon Market (VCM). The CUSIP Carbon Credit service provides for more than 19,000 nine-character CUSIP numbers for VCM projects and carbon credits.

Benefits

- Support the growth of the carbon market by consolidation decentralized global registry data, providing CUSIP identifiers for VCM projects and carbon credits
- Create interoperability allowing market participants more efficiencies in issuance, retirements, trading, clearing and settlement
- CUSIP number will be available for all the projects listed on the major registries globally including mapping to the registry identifiers

Carbon Credit

- Multiple search options, including:
 1. ID (CUSIP, Project ID, LEI/CABRE)
 2. Project Name
 3. Additional Criteria (Vintage Year, Project Type, Registry)
- Users have access to 30 new data fields supporting the Voluntary Carbon Market
- Direct Link to Registry by Project ID
- BeZero Carbon Rating – Proprietary rating representing the likelihood of a carbon credit achieving a ton of CO₂e avoided or removed.

CUSIP: 4C803PAD5			
		   	
CUSIP	4C803PAD5		
Project Name	Prony and Kafeate wind-farms, New Caledonia (300344)		
Project ID	GS566		
Registry	Gold Standard		
Registry Status	Registered		
Project Type	Wind		
Country	NC		
Vintage Year	2011		
Project Status	Released		
Start Date	04/20/2008		
Web URL	https://registry.goldstandard.org/projects/details/1001		
Developer Name	South Pole Carbon Asset Management Ltd.		
Methodology	ACM0002		
Credit Type	VER		
Crediting Period Start Date	04/20/2008		
Crediting Period End Date	04/19/2022		
First Credit Issuance Date	11/08/2011		
Total Credit	33528		
Outstanding Credit	0		
Activity Type	Avoidance		
Sector Group	Energy		
Sector	Renewable Energy		
Sub Sector	Wind		
Rating	BB		
Rating Watch	N
